### **Website Project Statement**

This website is a collection of assignments, projects, and coursework that I completed in MACA1840 during the Fall 2019 semester. It is meant to be a portal page that navigates to each assignment I have placed into the website. Individuals using the site are interested in seeing the coursework, the documents and planning around them, and seeing the final project. My goal for this webpage is to display my work throughout the semester in a professional way.
